

## **Driving Measurable Operational Gains through Strategic Capability Partnership**

Bharatiya Vidya Bhavan Institute of Management Science (<https://bimskol.org/>) and Dynovia Solutions LLP ([www.dynoviasolutions.com](http://www.dynoviasolutions.com)), have entered into a strategic collaboration to offer a focused engagement model designed to deliver enhanced business outcomes for the Corporates / Companies.

This partnership is structured for Corporates / Companies seeking immediate and measurable impact on skilling, reskilling and upskilling of employees by imparting curated Management Development Programmes (MDPs) and value added consultancy assignments to create productivity and efficiency.

### **Value Proposition of this collaboration:**

Based on this collaboration a synergy has been created between high impactful industry knowledge of more than three decades and a renowned academia in the management education field for an equivalent time frame. This collaboration will have a high potential to add value in the following areas of operation of a conglomerate.

- Capability development by conducting different MDPs in line with business KPIs.
- Reduction in operational costs through process optimization, waste elimination, and workflow redesign.
- Enhancement in productivity levels across plant operations, supply chain, and support functions
- Improvement in inventory efficiency Resulting in lower carrying costs, improved working capital cycles and improving operating cash flow (OCF).
- Reduction in process cycle times leading to faster throughput and improved customer responsiveness.
- Improving Turn Around Time (TAT).

Thus, this collaboration between industry & academia knowledge will have strategic boardroom alignment together with the shopfloor impact and sustainable capability creation.

We would welcome the opportunity to have a brief, outcome-focused discussion to identify 1–2 areas where immediate, measurable gains can be delivered by us for your esteemed organization.
